

# South West Alcohol Improvement Programme Alcohol Identification and Brief Advice Training February – March 2012

## FREE TRAINING FOR STAFF ACROSS THE SOUTH WEST

Alcohol Identification and Brief Advice (IBA) is an evidence based intervention directed at people drinking at increasing and higher risk levels. It can be delivered by staff in a wide range of settings including primary care, hospital Emergency Departments and specialist settings such as sexual health clinics and community pharmacies.

These free one day training courses will develop practitioner's confidence in identifying and responding to alcohol issues in a safe and effective way. Participants will

- Learn about current evidence and practice
- Recognise the risks alcohol can present to an individuals health
  - Learn how to use screening tools
- Learn how and when to provide brief interventions
  - Practice skills and techniques

The training is delivered in line with National Occupational Standard AH10 and is relevant professional development for NHS and non-NHS staff working in a variety of environments. Maximum group size 18. Comprehensive resources, including full course outline, will be provided to support learning and ongoing delivery of alcohol IBA.
