

You Need To Know... And You Need To Let It Be Known!

# Medicine **Allergy** Matters

## Did you know you could be **Allergic** to Medicines?

An allergic reaction to certain medicines such as Penicillin can be extremely dangerous. Penicillin can also save your life... so it is **vitaly important** to be certain whether or not you are allergic.

**REMEMBER, HAVING AN ALLERGIC REACTION  
IS **NOT** THE SAME AS A **SIDE EFFECT!****

If you **don't know your allergy status** then check with your  
Pharmacist, Doctor or Nurse **today!**

This project has been developed in collaboration with and funded jointly by NHS South West and the ABPI Outreach Project Team whose members are the pharmaceutical companies: AstraZeneca UK Limited; Merck Sharp & Dohme Ltd; Schering-Plough Limited; Pfizer Limited. The ABPI is the Association of the British Pharmaceutical Industry. 01/09
